

RESIDENT HEALTH AND SAFETY

Collingswood Nursing & Rehabilitation Center has protocols in place that allow us to respond quickly and efficiently to the threat of a potentially contagious illness. With any type of illness, our focus is always on the health and safety of our residents, families, visitors and staff.

We are working closely with health officials to monitor the status of any potential illness that presents a threat to our facility. If at any point a threat is imminent, we will take appropriate action to ensure that we have the necessary precautions in place to address the potential threat in the best possible manner.
